Sectional Bookcases

*Sold Direct from
Factory without the
Dealer's Profit*

The C. J. LUNDSTROM MFG. CO.
LITTLE FALLS :: NEW YORK

A Word of Introduction

WE HAVE been engaged in the manufacture of sectional bookcases for over a quarter of a century, having from time to time added to our equipment, until today we are one of the largest manufacturers of these cases in the United States.

We are manufacturing our cases under our own patents, in our own factory, which is equipped with the latest modern machinery and the most economical manufacturing devices known to the cabinet trade.

Economy, acquired by manufacturing on a very large scale, and selling our cases direct to users, enables us to quote prices very much below the prices of our competitors, who are obliged to add at least 30 per cent. to the cost of their products, for the dealer's profit.

In purchasing our sectional bookcases you are not helping to test a doubtful experiment, but are assured of an article which time and experience have proven a wonderful success.

For information concerning our financial standing, and our ability to fulfill all contracts, as well as to adhere strictly to the terms of our guarantee, we would respectfully refer you to either of the commercial agencies, Dun or Bradstreet, also to the Little Falls National Bank of this city.

THE C. J. LUNDSTROM MFG. CO.,
Little Falls, New York

Dec. 1, 1925.

"All that mankind has done, thought, gained or been, it is lying as in magic preservation in the pages of books. They are the chosen possession of men."
—Carlyle.

OUR DUTY TO OUR BOOKS

THESE words of Carlyle suggest our duty to our books and the great value of a library in the home. Any book that is worth having is surely worth treasuring—worth preserving. The book shelves of other days, serving simply to hold the precious volumes, and exposing them to the ravages of destroying dust and yellowing air, have given way to the modern bookcase of today, with its unit dust-proof sections and glass paneled doors, through which the old books look out, and we "seem to read on their backs something besides their titles—a kind of solemn greeting."

The later day solid bookcase, no less than the bookshelves of our fathers, is impractical. In size it is always too large or too small. It is bulky, cumbersome, unwieldy, and difficult to handle. Once placed, there it must remain; as stationary as the wall against which it stands.

THE IDEAL BOOKCASE

A library grows and a practical bookcase must grow with it. Expansion, as applied to bookcases, is a happy thought which meets the requirements of new and changing conditions. The ideal Sectional Bookcase is the LUNDSTROM.

ITS ECONOMY

"It grows with your library." When one section is filled, you add another, and in this way the expense is scarcely felt. One Lundstrom section costs only about what one good book costs. Surely, if good books are worth acquiring, they are worthy of good homes and good care.

ADAPTABILITY AND ARTISTIC MERIT

The Lundstrom Sectional Bookcases can be arranged to occupy almost any vacant space or adjusted to any little cosy nook or corner. They add to the attractiveness of any home. They are also a delight to the eye and a distinct addition to the equipment of any home.

TERMS

The prices in our catalog are strictly NET; F. O. B. factory.

Where C. O. D. shipment is desired, we require a deposit of 25 per cent. of the amount of the order. On freight shipment, the balance, plus 25 cents, the usual bank collection charge, will be collected by sight draft attached to bill of lading, this draft being forwarded through any bank designated. On express shipment, the express company will collect the balance upon delivery of the shipment.

All goods (with the exception of special goods finished to order) are shipped subject to the approval of the purchaser, and are to be returned by him within thirty days from receipt of goods if they are not acceptable. In the event that goods are returned to us as unsatisfactory, we guarantee to refund promptly remittance in full upon request; we to pay freight charges both ways.

We also agree to assume all responsibility in case of damage or loss in shipment; orders for special goods excepted.

Recognizing the fact that a catalog can, at its best, give but a general idea of the goods shown therein, we only ask you to order, not to buy. The money accompanying your order is merely held in trust while the goods are shipped and examined.

ADVANTAGES OF ORDERING DIRECT

By ordering direct from the factory you have a better chance to inspect our sectional bookcases than if they were exhibited in a retail store. You decide as to their merits in the privacy of your own home, without agents or salesmen to influence you. You are always assured of receiving new and not shop-worn stock. You also save at least 30 per cent., which would have to be added to our prices, if we sold our cases through dealers.

We keep on file an exact copy of every order shipped by us. This enables you to obtain additional sections to match at any time in the future—we frequently ship cases to match orders filled twenty and more years ago.

HOW TO ORDER

Arrange your books and determine by measurements in lineal inches the total length of shelf space required to hold them. Divide this length by 32 (which is the inside length of our book section), and you will have the number of book sections needed.

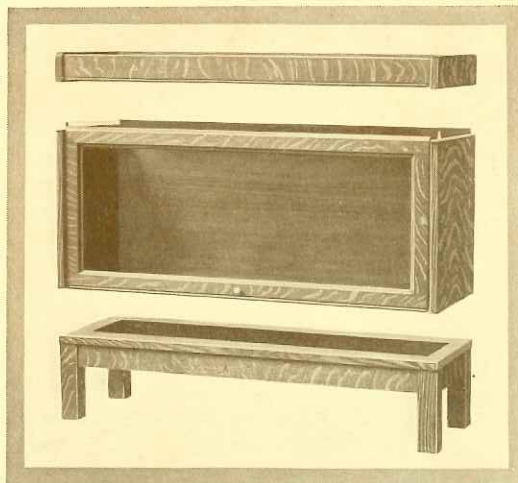

The number of tops and bases will be governed by the arrangement desired. Four sections with top and base sections make a convenient height.

By the inside height of a book section is meant the distance between the shelf and the door, when the door is in a horizontal position. Thus a $9\frac{1}{4}$ inch book section will easily accommodate books up to $9\frac{1}{4}$ inches high, which is the size of the majority of books found in an ordinary home library.

Our $11\frac{1}{4}$ inch book section is suitable for all octavo works, and is a size particularly adapted for law offices as it will accommodate all reports, American Digest, American and English Encyclopedia of Law, etc.

After determining the number and size of sections required, you can then select the grade and finish. For description of grades and finishes, see page 30.

In purchasing a sectional bookcase it should be remembered that you are investing in an article that will last a lifetime. The bookcase that would answer your requirements today might not harmonize with the better grade of furniture you will doubtless possess in the years to come. It is therefore advisable to limit your purchase to a few sections of the better grades and increase your library as your circumstances permit.

GENERAL CONSTRUCTION

TOP SECTIONS: As the sections for holding books are open at the top, the shelf of one section covering the top of the next lower one, a top section is necessary to cover the upper book section. We furnish two different styles of top sections; with flat front moulding and with roll front moulding, as illustrated in catalog. Both are interchangeable.

BOOK SECTIONS: A complete case consists of top, base and one or more sections for holding books. These book sections are composed of shelf, back, two ends and door. The shelf is very solidly made and smoothly finished; being seven-eighths inch thick, it is very strong and will hold the weight of any number of books that may be placed in the section.

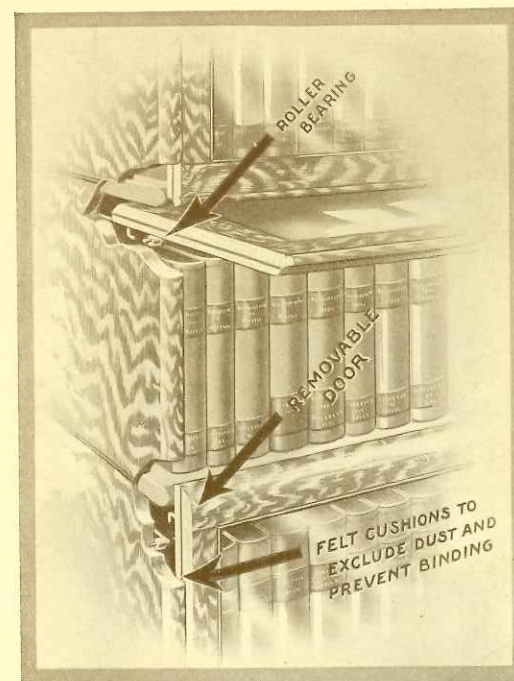

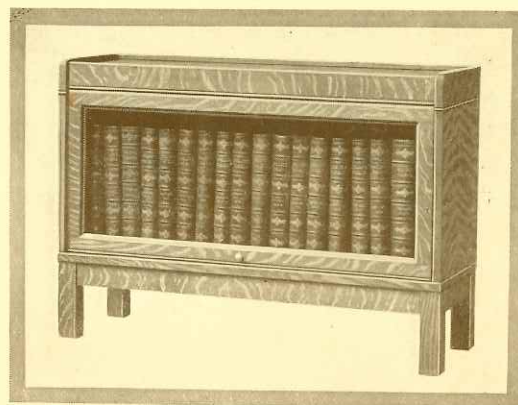

The back is three-eighths inch thick, and is smoothly finished. The ends are seven-eighths inch thick, handsomely shaped and finished, and beaded at the end to break the joint where the sections interlock. These ends are hinged to the shelves with special irons to allow the cases to be folded flat for shipment. On the inside of the ends are secured the rollers and wire runways upon which the door operates. These book sections are made in different sizes as listed in catalog, the number of the section indicating the inside height or size of book the section will accommodate.

BASE SECTIONS: In order to raise the case from the floor, a base section should be used. This makes it easy to refer to books in the lower book section, and also gives the case a solid foundation. These base sections are furnished in four different styles as illustrated on different pages of catalog.

ONE BOOK SECTION WITH TOP AND BASE is, up to its capacity, a complete bookcase. It is not necessary to wait until you have enough books to fill several sections before you start a case, nor is it necessary to order more sections than you can fill—just order the number of sections needed for the books you have, and add more sections from time to time as you acquire more books.

A single section stack is often used under a window; either permanently, or until more sections are needed, when the case is transferred to some other space and built up higher. The case is always complete, yet never finished; may be changed at any time when conditions make change necessary.

By purchasing a few sections at a time, an extensive case may be built up without the expense being felt.

DOORS

The Lundstrom Sectional Bookcases are equipped with overlapping pivoted glass doors, which, upon being raised to a horizontal position may be PUSHED BACK into the section over the books ENTIRELY OUT OF THE WAY.

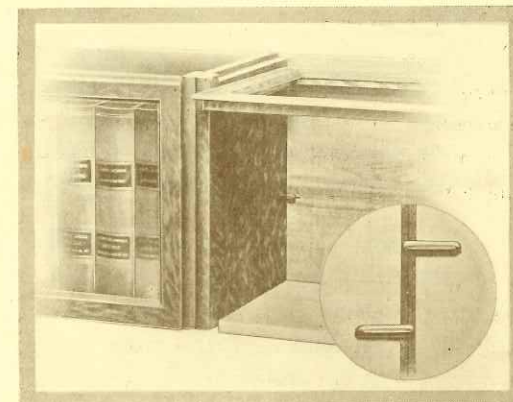

Each DOOR MAY BE REMOVED without disturbing the books or disconnecting the adjoining sections; a feature of great convenience when cleaning or replacing the glass.

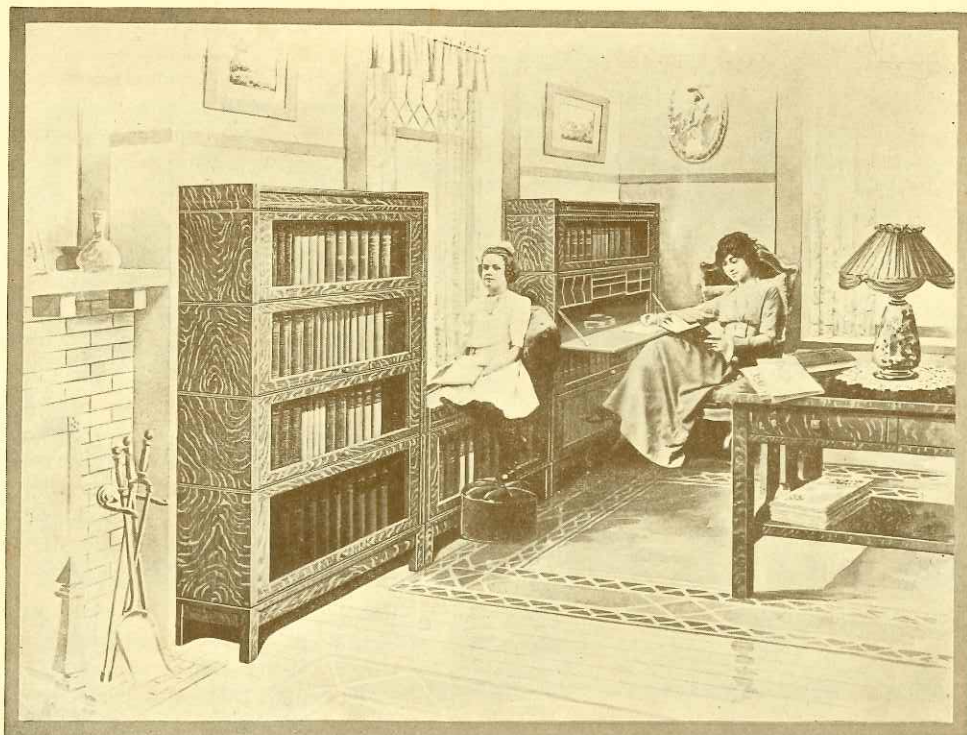

The ends of the doors are provided with FELT CUSHIONS which insure an ABSOLUTELY DUST PROOF CASE and PREVENT THE DOORS FROM BINDING by eliminating the friction between the doors and the ends or sides of the book sections.

The book sections are provided with ROLLER BEARINGS upon which the doors are hung and which allow the doors to slide back with perfect ease.

HORIZONTAL INTERLOCKING DEVICE

PERFECT ALIGNMENT between two or more tiers of sections is only possible with our PATENT HORIZONTAL INTERLOCKING DEVICE. The slides or bolts shown in the adjoining cut overlap alternately the backs of the book sections and hold sections in perfect unison. NO METAL BANDS to mar the appearance of the case nor tear loose by the sagging of the book sections. In using our horizontal interlocking device it is not necessary to do any fitting, or even disturb the sections. After having placed the sections end to end, the bolts are simply pushed over with the fingers from inside the case. When not in use the bolts are slid back entirely out of sight. With the Lundstrom Patented Horizontal Interlocking Device, Book Sections of different sizes may be interlocked side by side; an exclusive feature of great importance. See pages 15 and 29.

Universal Design

OUR Universal Design cases are carefully made and beautifully finished; they possess all the essential qualities of good furniture. Combining a pleasing, enduring design, with all the latest practical improvements in construction, they are equally well adapted for office and public libraries and for the home. They are made in different grades and finishes; full list of dimensions and prices being given on page 31 of catalog.

The book sections have solid, plain ends; hinged to the shelves by means of a special arrangement allowing the cases to be folded flat for shipment. They are set up without using any tools whatever, and when so set up are very rigid. The ends of the sections are flat in front giving somewhat of a Mission effect, and harmonizing with the design of the top and base sections.

Unless otherwise specified in order, the oak cases are furnished in the Golden (Dark Brown) finish. Special finishes are furnished for ten per cent. extra. For description of finishes, see page 30.

THREE SECTION BOOKCASE — Universal Design

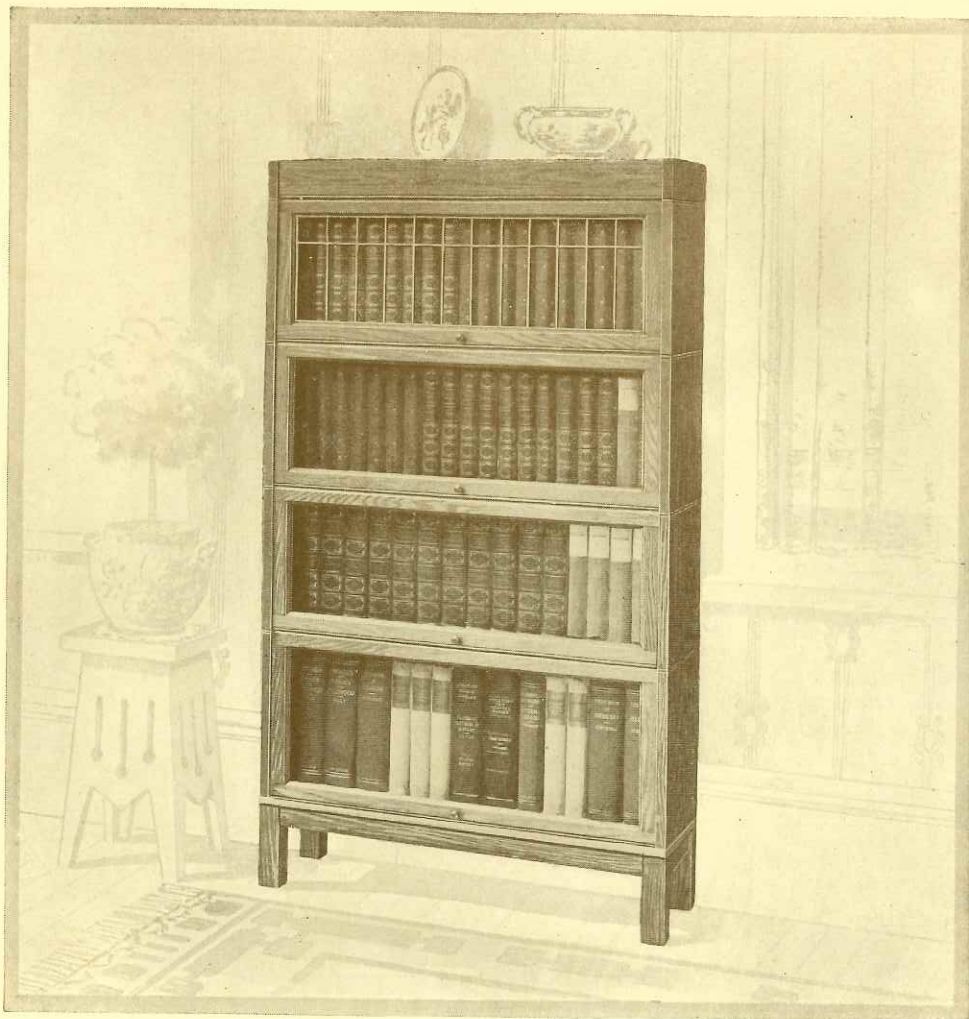

47 inches high, 34 inches wide, 8 feet book space

Universal Design	Plain Oak	Qt. Oak or Imt. Mah'y Imt. Waln't	Gen. Mah'y
1 No. S-NU Sq. Top Sec....	\$ 2.25	\$ 2.75	\$ 3.50
2 No. 9 $\frac{1}{4}$ -NU Book Secs...	7.50	8.50	11.00
1 No. 11 $\frac{1}{4}$ -NU Book Sec...	3.75	4.25	5.50
1 No. L-NU Leg Base Sec.	2.25	2.75	3.50
Total.....	\$15.75	\$18.25	\$23.50

This is the combination shown in our advertisement.

It is a good combination to use to start the home library. We show this same combination of book sections with different top and base sections on pages 17 and 25.

Regarding finish, see page 30.

FOUR SECTION BOOKCASE — Universal Design

58½ inches high, 34 inches wide, 10 feet 8 inches book space

Universal Design	Plain Oak	Qt. Oak or Imt. Mah'y Imt. Waln't	Gen. Mah'y
1 No. S-NU Sq. Top Sec.---	\$ 2.25	\$ 2.75	\$ 3.50
3 No. 9¼-NU Book Secs.---	11.25	12.75	16.50
1 9¼ Sq. Leaded Glass-----	2.75	2.75	2.75
1 No. 11¼-NU Book Sec.---	3.75	4.25	5.50
1 No. L-NU Leg Base Sec.---	2.25	2.75	3.50
Total-----	\$22.25	\$25.25	\$31.75

This is a particularly good combination for a home library, where a majority of the books are small. If plain glass is desired in upper book section, omit the extra charge for the leaded glass included in specification.

Regarding finish, see page 30.

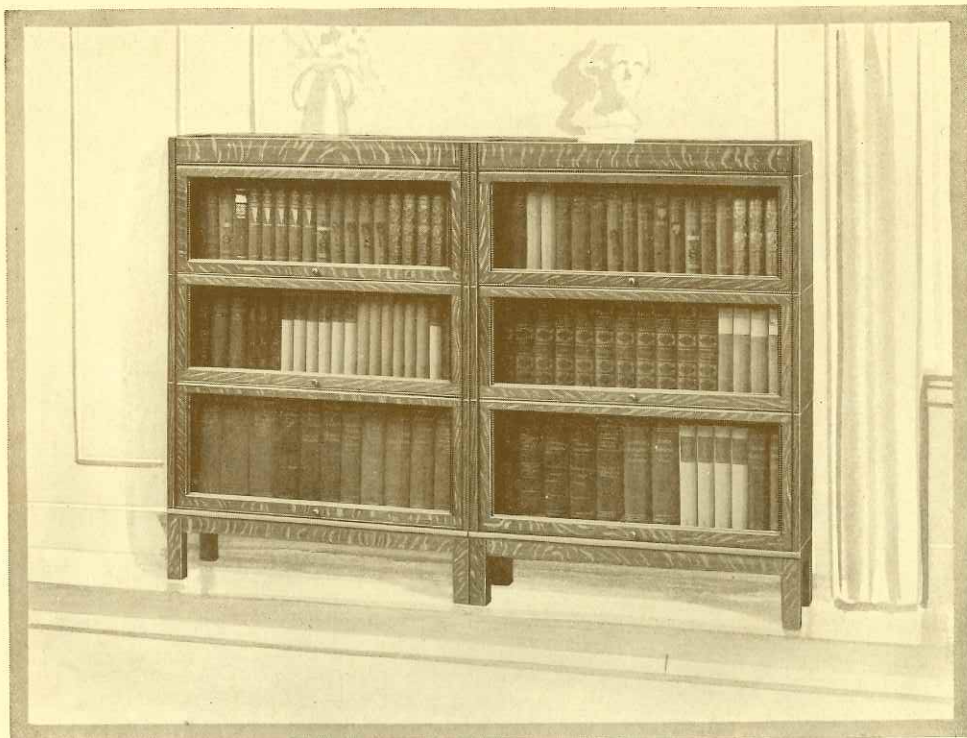

COMBINATION DESK AND BOOKCASE — Universal Design

58½ inches high, 34 inches wide, 8 feet book space

Universal Design	Qt. Oak or Imt. Mah'y Imt. Waln't	Gen. Mah'y
1 No. S-NU Square Top Section-----	\$ 2.75	\$ 3.50
3 No. 9¼-NU Book Sections-----	12.75	16.50
1 9¼ Square Leaded Glass-----	2.75	2.75
1 No. D-NU Desk Section-----	12.00	14.00
1 No. L-NU Leg Base Section-----	2.75	3.50
Total-----	\$33.00	40.25

Two 9¼-NU Book Sections with square leg base, or with Colonial Low Base Section without drawer as shown on pages 27 and 29, bring the writing bed of desk to a convenient height.

Regarding finish, see page 30.

SIX SECTION BOOKCASE — Universal Design

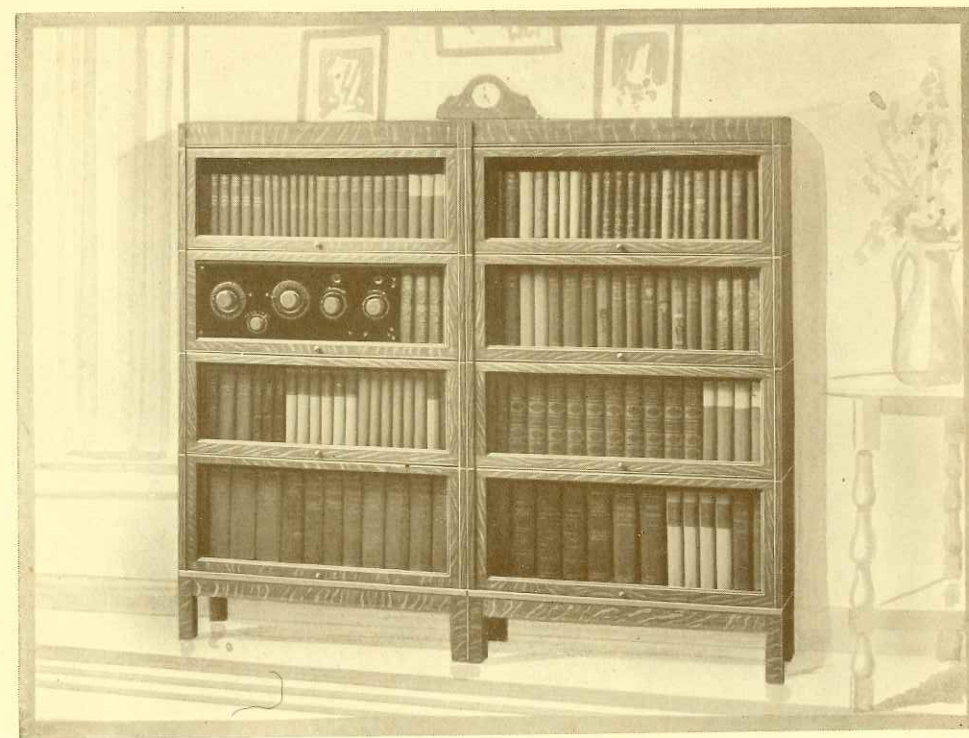

47 inches high, 68 inches wide, 16 feet book space

Universal Design	Plain Oak	Qt. Oak or Int. Mah'y Int. Waln't	Gen. Mah'y
2 No. S-NU Sq. Top Secs...	\$ 4.50	\$ 5.50	\$ 7.00
4 No. 9½-NU Book Secs...	15.00	17.00	22.00
2 No. 11¼-NU Book Secs...	7.50	8.50	11.00
2 No. L-NU Leg Base Secs.	4.50	5.50	7.00
Total.....	\$31.50	\$36.50	\$47.00

Two or more stacks of cases may be used side by side. Each stack is complete in itself, and may be used separately at any time.

Any number of sections may be used in each stack; generally from three to five are used according to height desired and wall space available.

Regarding finish, see page 30.

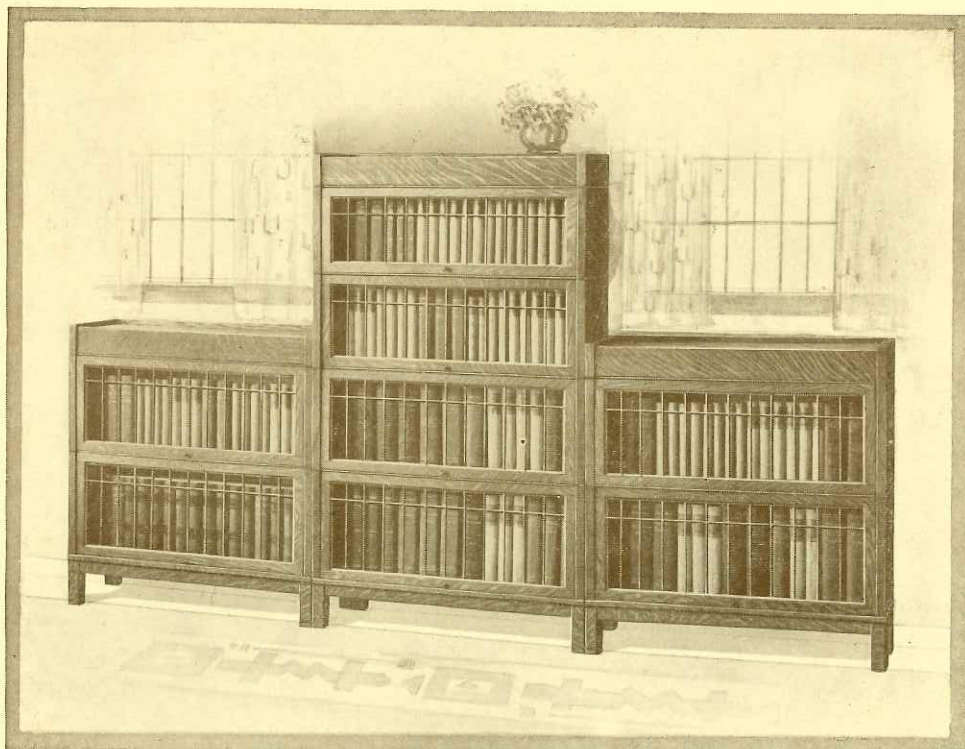

EIGHT SECTION BOOKCASE — Universal Design

58½ inches high, 68 inches wide, 21 feet 4 inches book space

Universal Design	Plain Oak	Qt. Oak or Int. Mah'y Int. Waln't	Gen. Mah'y
2 No. S-NU Sq. Top Secs...	\$ 4.50	\$ 5.50	\$ 7.00
6 No. 9½-NU Book Secs...	22.50	25.50	33.00
2 No. 11¼-NU Book Secs...	7.50	8.50	11.00
2 No. L-NU Leg Base Secs.	4.50	5.50	7.00
Total.....	\$39.00	\$45.00	\$58.00

A sectional bookcase makes an ideal arrangement for holding a Radio Set, as shown above. Battery may be placed in lower book section, with wood panel or opaque glass instead of plain glass in door, with wires in back of case, between the sections, to connect battery with Radio Set.

Regarding finish, see page 30.

EIGHT SECTION WINDOW CASE OF THREE STACKS—
Universal Design

Height of center stack, 58½ inches; of sides, 35½ inches; width, 8 feet 6 inches;
book space, 21 feet 4 inches

CENTER STACK

Universal Design	Plain Oak	Qt. Oak or Imt. Mah'y Imt. Waln't	Gen. Mah'y
1 No. S-NU Sq. Top Sec.---	\$ 2.25	\$ 2.75	\$ 3.50
3 No. 9¼-NU Book Secs.---	11.25	12.75	16.50
1 No. 11¼-NU Book Sec.---	3.75	4.25	5.50
1 No. L-NU Leg Base Sec.	2.25	2.75	3.50

RIGHT AND LEFT HAND STACKS

2 No. S-NU Sq. Top Secs.---	4.50	5.50	7.00
2 No. 9¼-NU Book Secs.---	7.50	8.50	11.00
2 No. 11¼-NU Book Secs.---	7.50	8.50	11.00
2 No. L-NU Leg Base Secs.	4.50	5.50	7.00

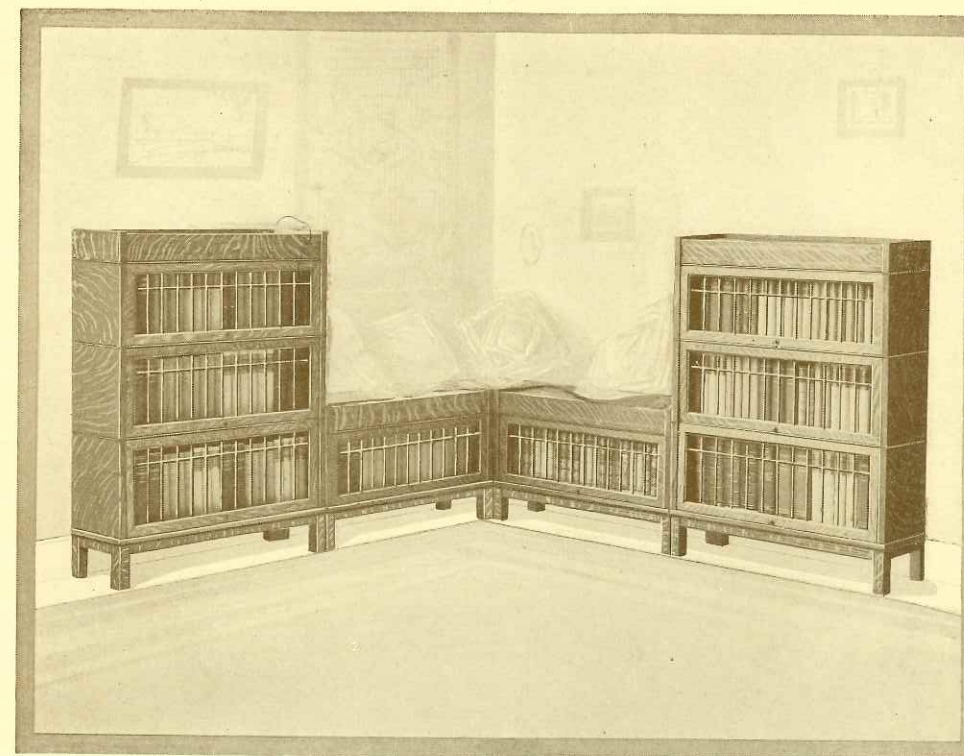

Total with plain glass.---	\$43.50	\$50.50	\$65.00
8 Square Leaded Glass.---	22.00	22.00	22.00

Total with leaded glass.---	\$65.50	\$72.50	\$87.00
-----------------------------	---------	---------	---------

It is sometimes necessary to use two book sections to bring cases to correct height for use under a high window. It is not necessary to have all stacks the same height, as may be seen from above illustration.

Although illustrated with square leaded glass in all sections, the cases look very well with plain glass in all sections or with leaded glass just in the upper book section of each stack or of center stack only.

Regarding finish, see page 30.

EIGHT SECTION CORNER BOOKCASE OF FOUR STACKS—
Universal Design

Height of center stacks, 22 inches; of sides, 47 inches; book space, 21 feet 4 inches

CENTER STACKS

Universal Design	Plain Oak	Qt. Oak or Imt. Mah'y Imt. Waln't	Gen. Mah'y
2 No. S-NU Sq. Top Secs.---	\$ 4.00	\$ 5.50	\$ 7.00
2 No. 9¼-NU Book Secs.---	7.50	8.50	11.00
2 No. L-NU Leg Base Secs.	4.50	5.50	7.00
1 Top Board for Corner.---	1.25	1.50	1.75

RIGHT AND LEFT HAND STACKS

2 No. S-NU Sq. Top Secs.---	4.50	5.50	7.00
4 No. 9¼-NU Book Secs.---	15.00	17.00	22.00
2 No. 11¼-NU Book Secs.---	7.50	8.50	11.00
2 No. L-NU Leg Base Secs.	4.50	5.50	7.00

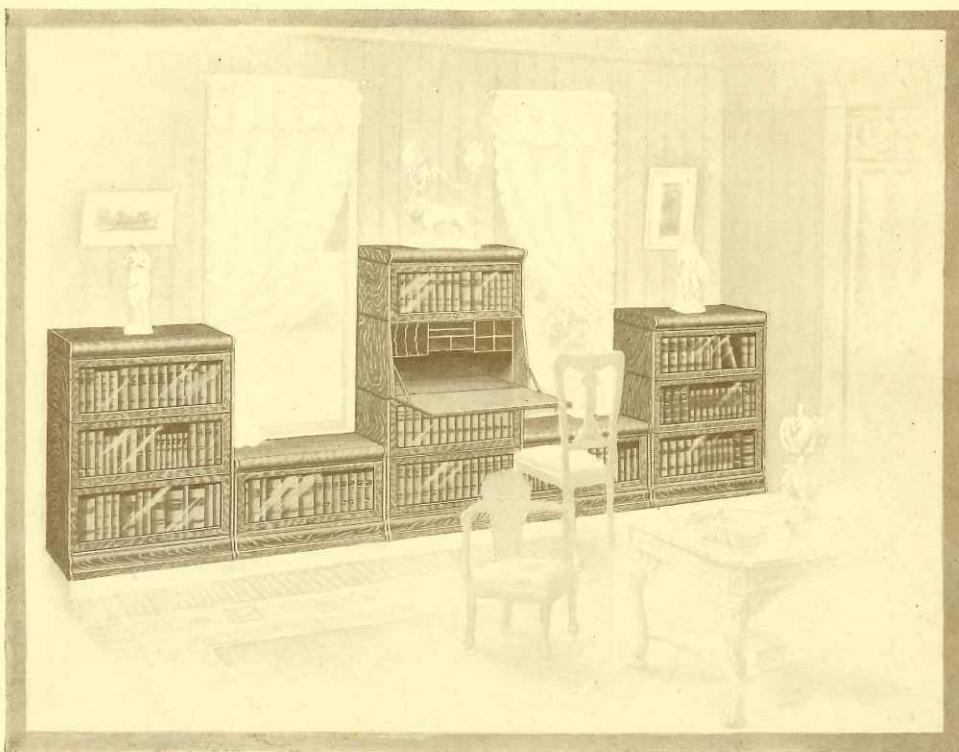

Total with plain glass.---	\$48.75	\$57.50	\$73.75
8 Square Leaded Glass.---	22.00	22.00	22.00

Total with leaded glass.---	\$70.75	\$79.50	\$95.75
-----------------------------	---------	---------	---------

Cases may be arranged with artistic effect in a corner, with the center stacks one section high for a seat. The 9¼ inch book section with square top section and square leg base section, as shown in the illustration above, make a convenient height. To fill the open space in the corner a top board is necessary, and will be furnished at prices mentioned in specification.

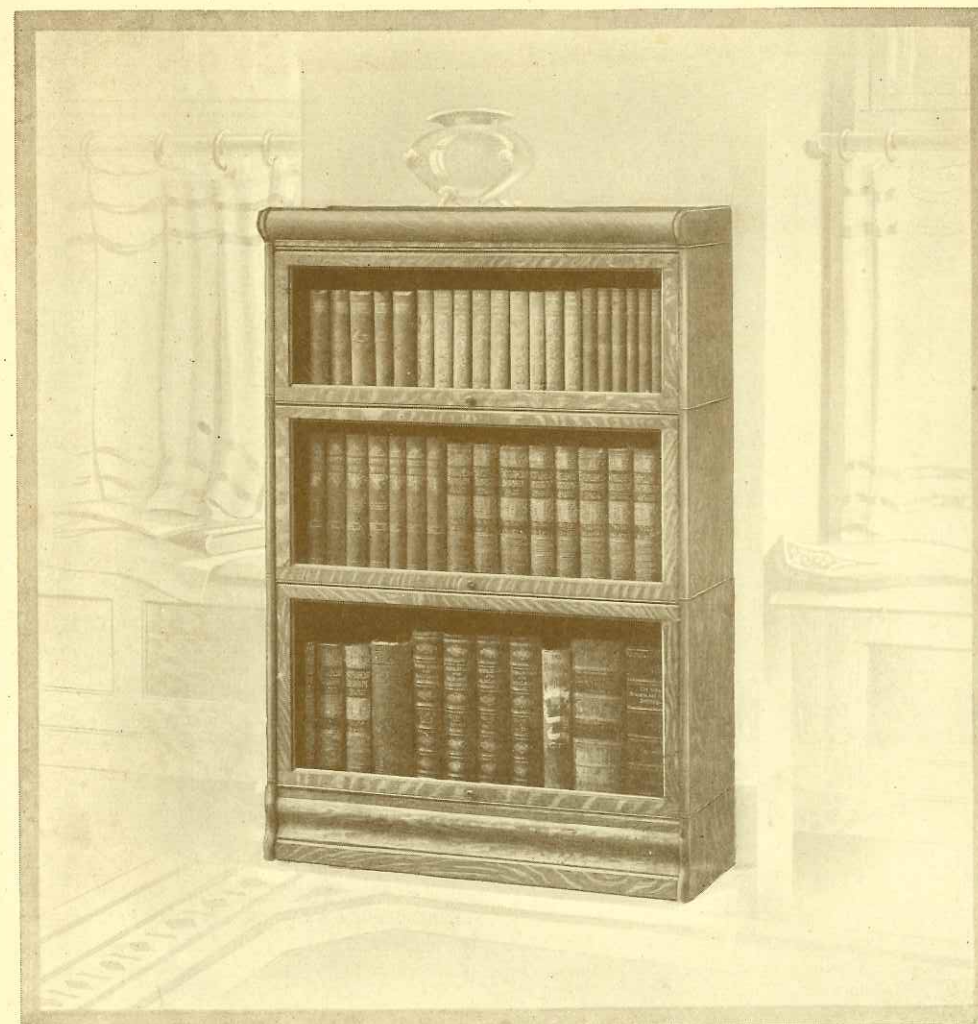

Plain glass may be had in all sections, or a very neat arrangement is made by having leaded glass in upper book section of each outside stack, and plain glass in other sections.

Regarding finish, see page 30.

Universal Design

THE Universal Design cases are furnished with square top section and square leg base section as shown on preceding pages, and also with roll top section and box base section as shown above and on opposite page. These top and base sections are interchangeable; stack may be built up if desired with roll top section and square leg base section or with square top section and box base section. The book sections are folded flat for shipping as described on pages 6 and 8; being set up readily without the use of tools.

THREE SECTION BOOKCASE — Universal Design

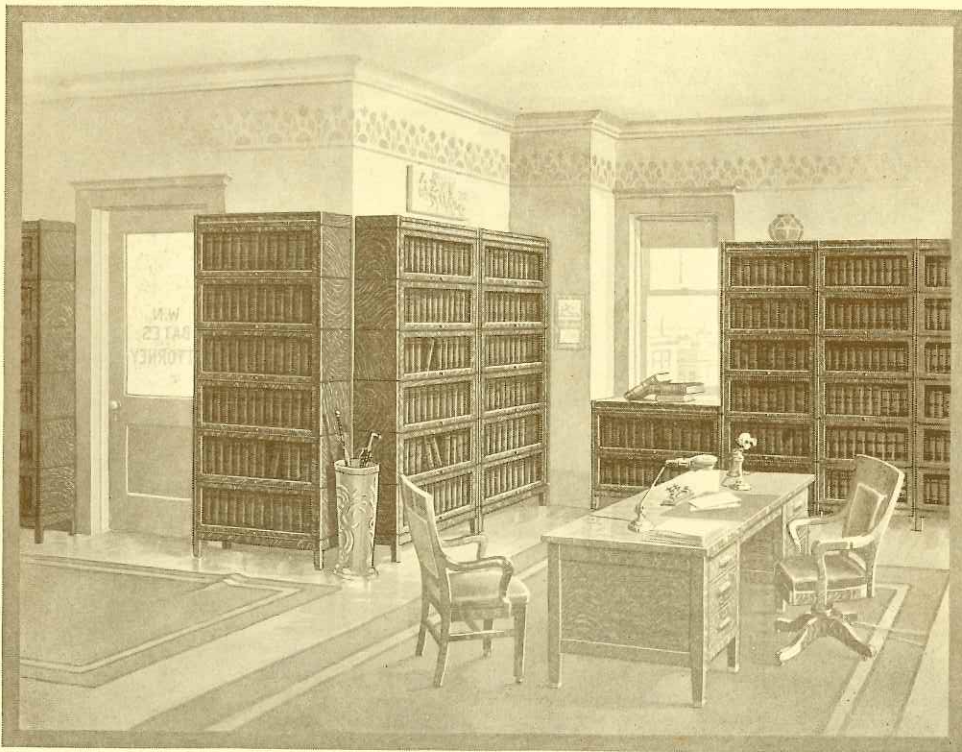

45½ inches high, 34 inches wide, 8 feet book space

Universal Design	Plain Oak	Qt. Oak or Int. Mah'y Int. Waln't	Gen. Mah'y
1 No. R-NU Roll Top Sec.---	\$ 2.25	\$ 2.75	\$ 3.50
2 No. 9½-NU Book Secs.---	7.50	8.50	11.00
1 No. 11½-NU Book Sec.---	3.75	4.25	5.50
1 No. B-NU Box Base Sec.---	2.25	2.75	3.50
Total-----	\$15.75	\$18.25	\$23.50

The box base section is often used when it is not desired to have space below the case as with the leg base section.

Any of the combinations shown on previous pages except that on page 15, may be made up with the roll top section and box base section.

Regarding finish, see page 30.

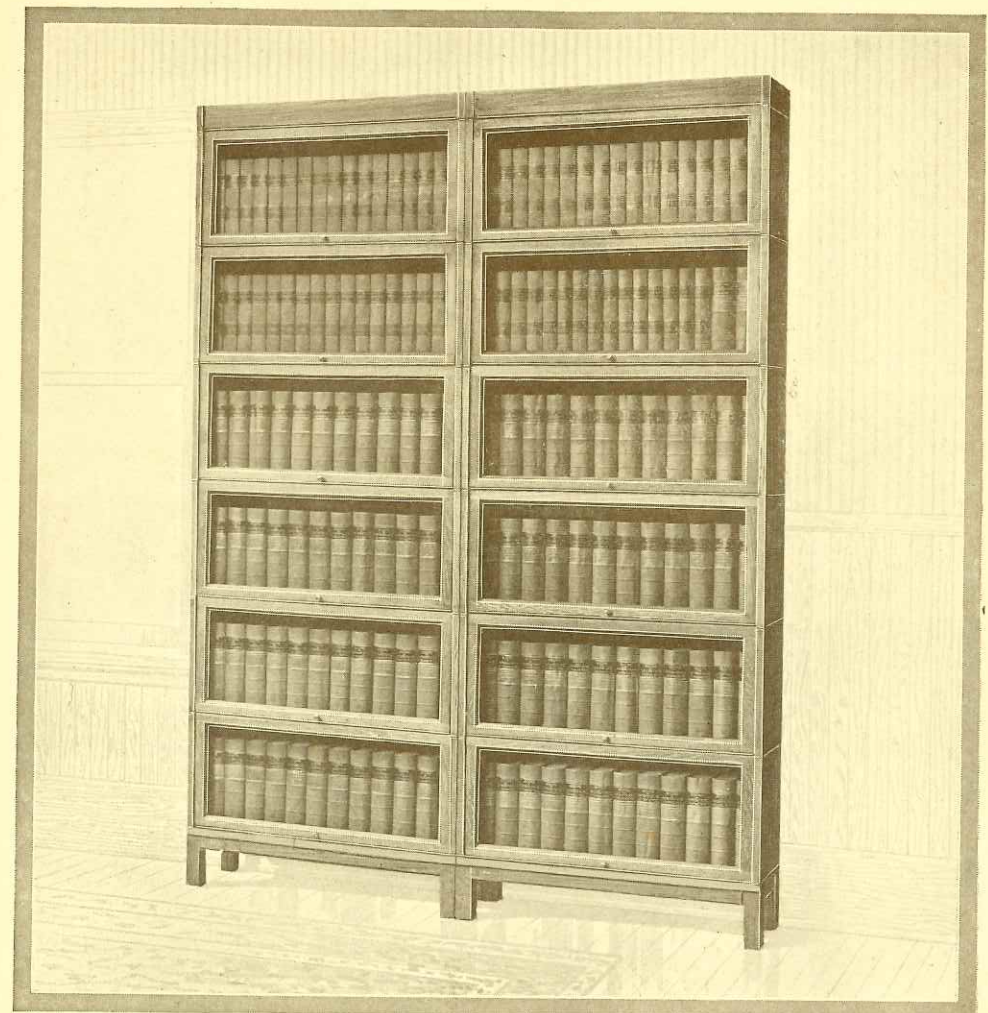

Law Office Library—Universal Design

THE BOOKCASES for a law library must be well built, to stand considerable usage; strong enough to pile high, to conserve wall space. They should also be well finished to harmonize with the other furniture in the office. The Universal Design cases meet all these requirements. Furnished in different grades and finishes, selection may be made to match other furnishings.

Sectional cases are particularly adapted for use in law libraries, where space is generally limited, and housing must be provided for a considerable number of books. The sections may be stacked as high as it may be convenient to reach, along straight walls; with low stacks under windows and in spaces where height of wall is limited.

Changes may be made in the office arrangement at any time; stacks rearranged without removing the books from the sections. The sections may be transported from one room to another, or from one office to another in case of change of office, without removing books; making it possible to have new office in shape in less time than it would take a carpenter to install plain shelves.

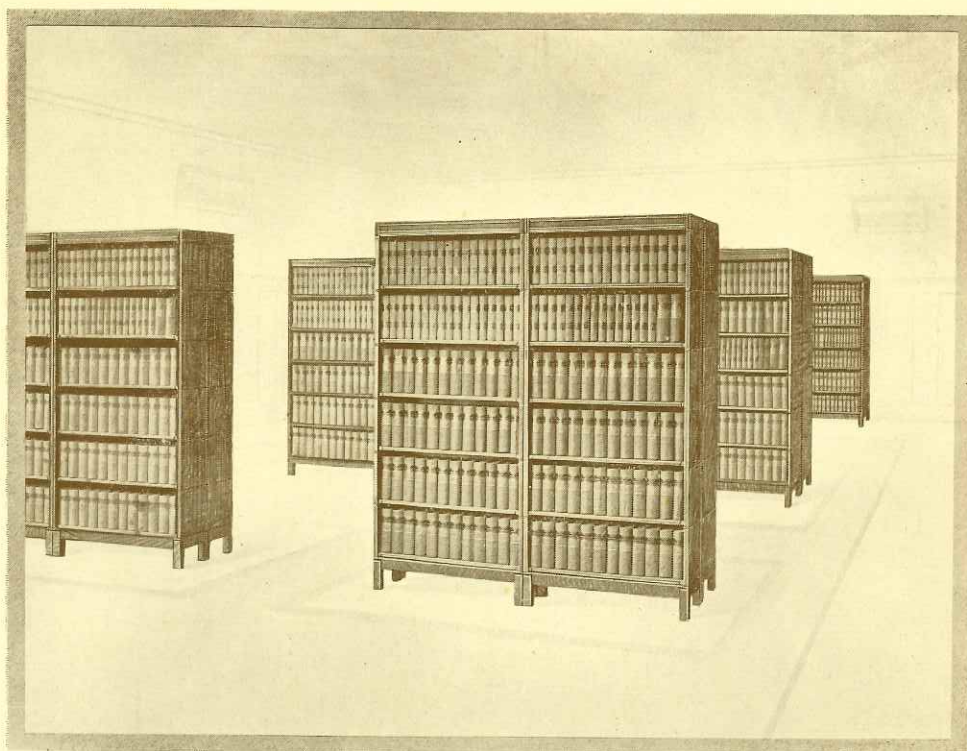

TWELVE SECTION LAW BOOKCASE WITH DOORS—Universal Design

91½ inches high, 68 inches wide, 32 feet book space

Universal Design	Plain Oak	Qt. Oak or Int. Mah'y Int. Waln't	Gen. Mah'y
2 No. S-NU Sq. Top Secs.	\$ 4.50	\$ 5.50	\$ 7.00
12 No. 11½-NU Book Secs.	45.00	51.00	66.00
2 No. L-NU Leg Base Secs.	4.50	5.50	7.00
Total	\$54.00	\$62.00	\$80.00

A very good combination for the accommodation of law books. Provided with doors to protect the books from dust. As many stacks as may be desired may be used along a wall and as many sections may be used in a stack as the height of the room or convenience of person using the cases may permit.

Regarding finish, see page 30.

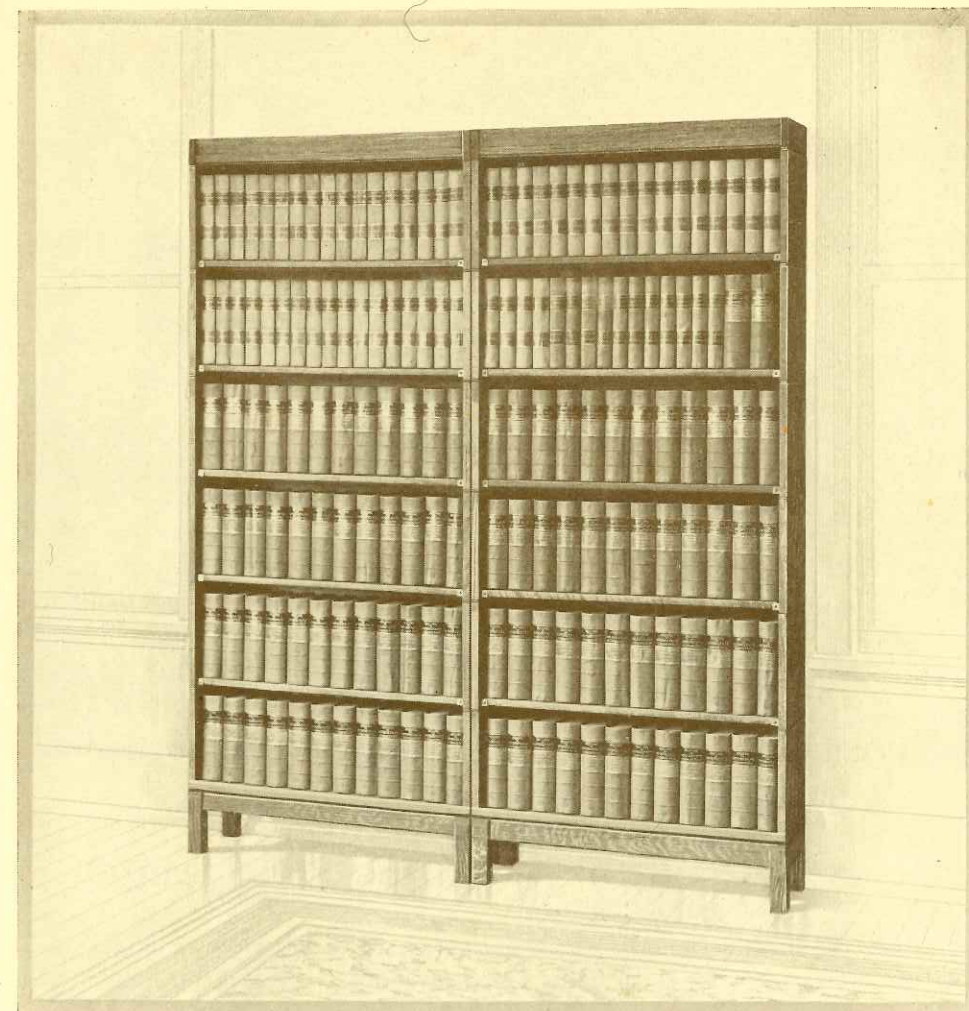

Law Library---Universal Design

THE Lundstrom Universal Design Sectional Bookcases are also made without doors; where protection from the dust is not essential, or it is desired to refer to books without having to open and close doors. These cases are as well made as the sections with doors; and provide a very inexpensive means of housing books for ready reference.

At any time, stacks may be re-arranged and spacing between stacks changed according to the number of cases needed in a room. As more books are purchased from time to time, new sections may be had to hold them; these new sections may be placed in the same stacks with original cases, and by moving the various stacks more closely together, new stacks may be built up in the space thus provided.

These sections without doors are made in three sizes; listed on page 31. Sections with and without doors may be used in the same stack, if desired; or the books most often referred to may be placed in stacks having sections without doors, and the books not in frequent use, and on which dust is more apt to accumulate, may be placed in separate stacks, having sections with doors, to protect from the dust.

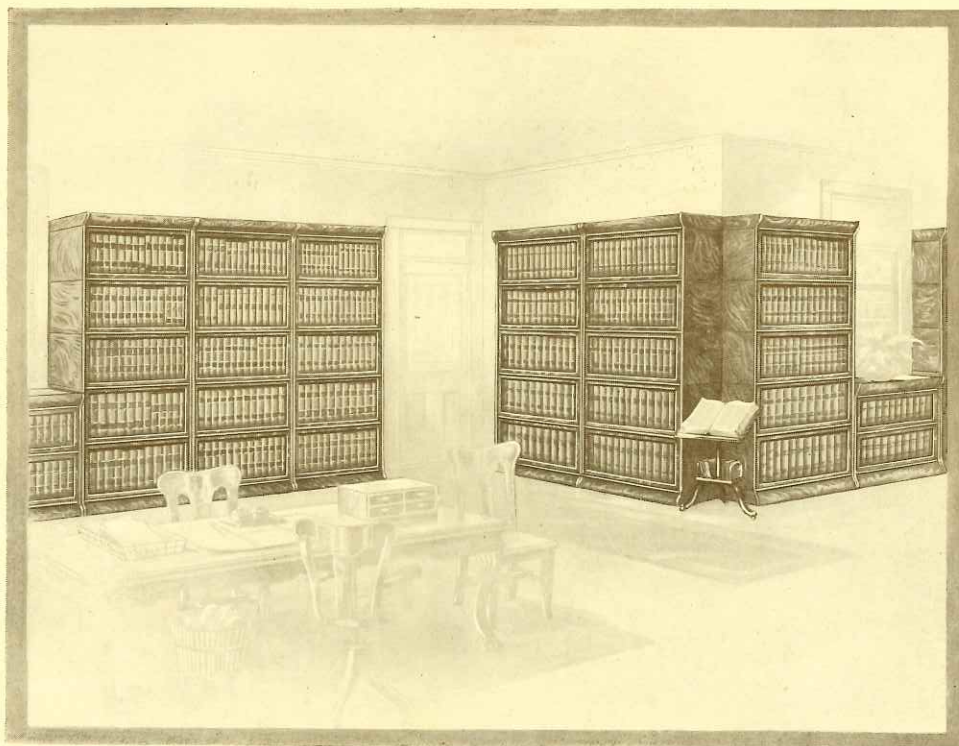

TWELVE SECTION LAW BOOKCASE WITHOUT DOORS—

Universal Design

79½ inches high, 68 inches wide, 32 feet book space

		Qt. Oak or Plain Int. Mah'y Oak Int. Waln't
2 No. S-NU Sq. Top Sections---	\$ 4.50	\$ 5.50
12 No. 10½-NU Book Sections---	36.00	39.00
2 No. L-NU Leg Base Sections---	4.50	5.50
Total-----	\$45.00	\$50.00

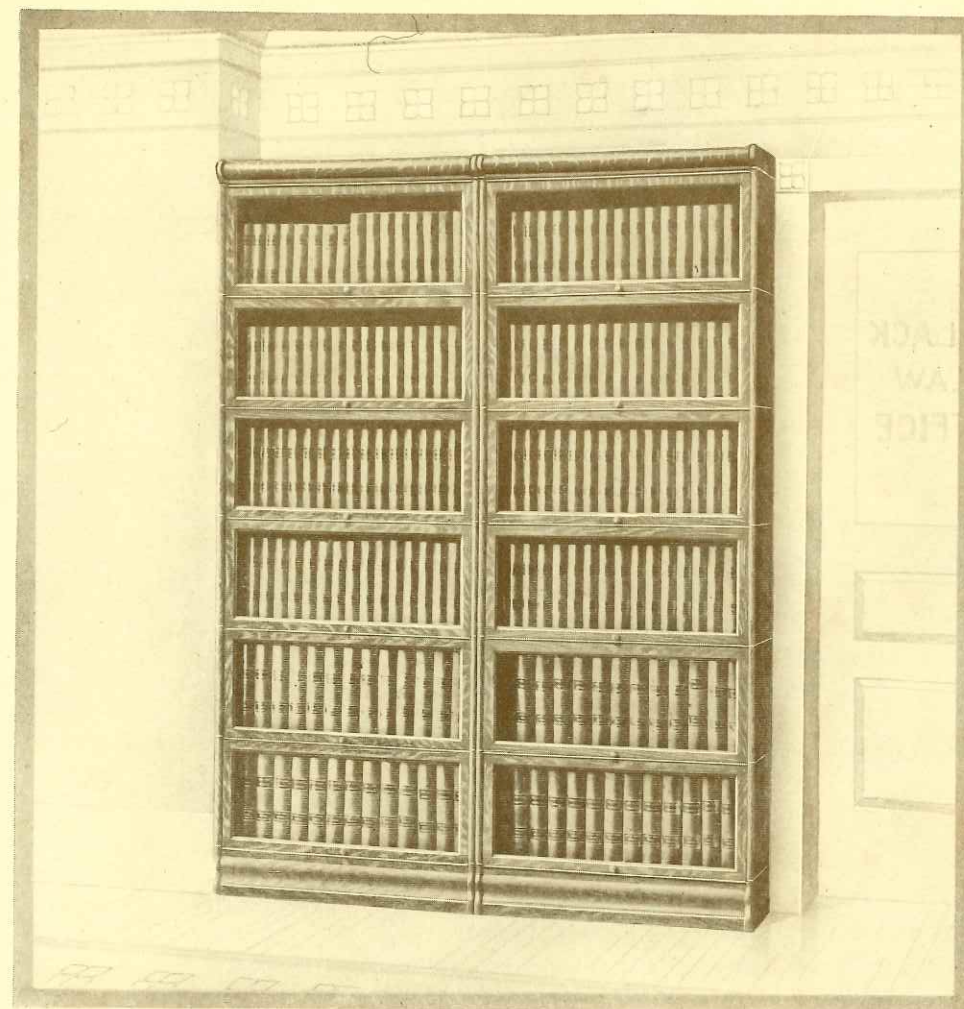

When it is not necessary to protect books from dust, these open sections are very desirable. Made in three sizes listed on page 31; sections named from heights of books they will accommodate. Sections of different heights may be used in the same stack, if desired. Above we illustrate the size most generally used for law books.

Law Office Library---Universal Design

THERE is probably no profession which necessitates the use of a larger number of reference books than the practice of law. Office room, even in the large modern office buildings, is very limited. It is therefore a matter of necessity that the space be used as economically as possible. This is where the sectional bookcase adapts itself to the existing conditions by utilizing spaces, such as between and under windows, which would otherwise be a total loss. By using these odd spaces for the housing of books, there is more room left for desk and other equipment, thereby giving a small office a large and roomy appearance.

The plain shelves cannot protect the books from dust, thereby leaving them a constant source of annoyance from this disagreeable feature, when necessary to use them for reference. Our sectional bookcases are dust-proof; they will preserve the books in their original, clean condition.

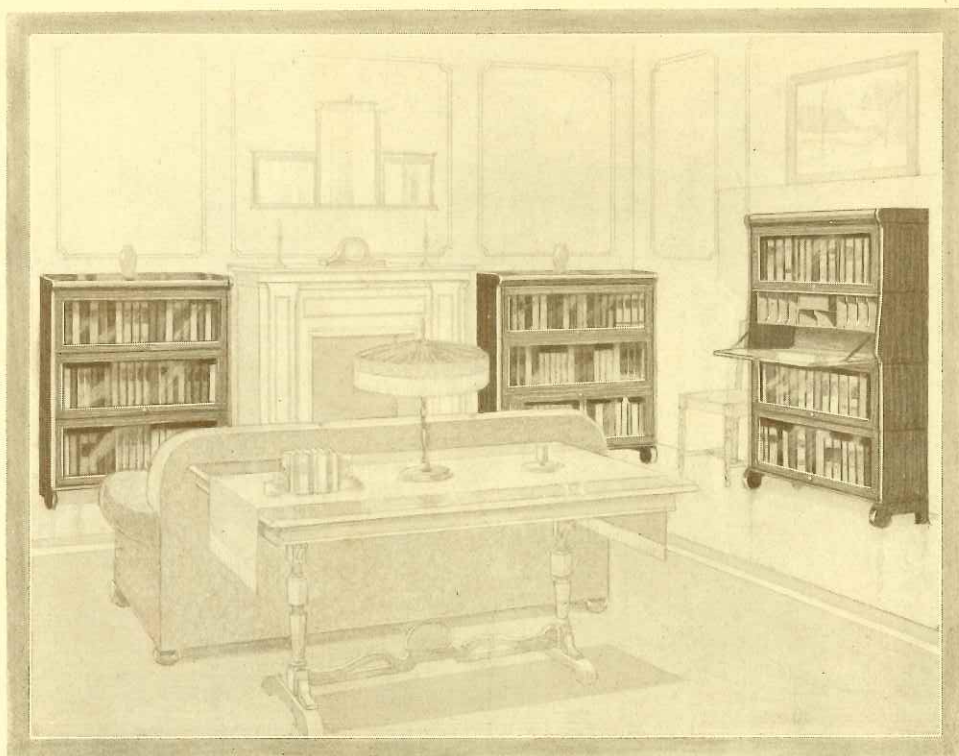

TWELVE SECTION LAW BOOKCASE WITH DOORS—Universal Design

90 inches high, 68 inches wide, 32 feet book space

Universal Design	Plain	Qt. Oak or	
	Oak	Imt. Mah'y	Gen. Mah'y
2 No. R-NU Roll Top Secs.	\$ 4.50	\$ 5.50	\$ 7.00
12 No. 11½-NU Book Secs.	45.00	51.00	66.00
2 No. B-NU Box Base Secs.	4.50	5.50	7.00
Total.....	\$54.00	\$62.00	\$80.00

A most convenient case for the law library. The glass doors keep the books free from dust, also suggest privacy—a privilege enjoyed by those who wish to be particular in the housing of their choice and valuable collection of law books.

Regarding finish, see page 30.

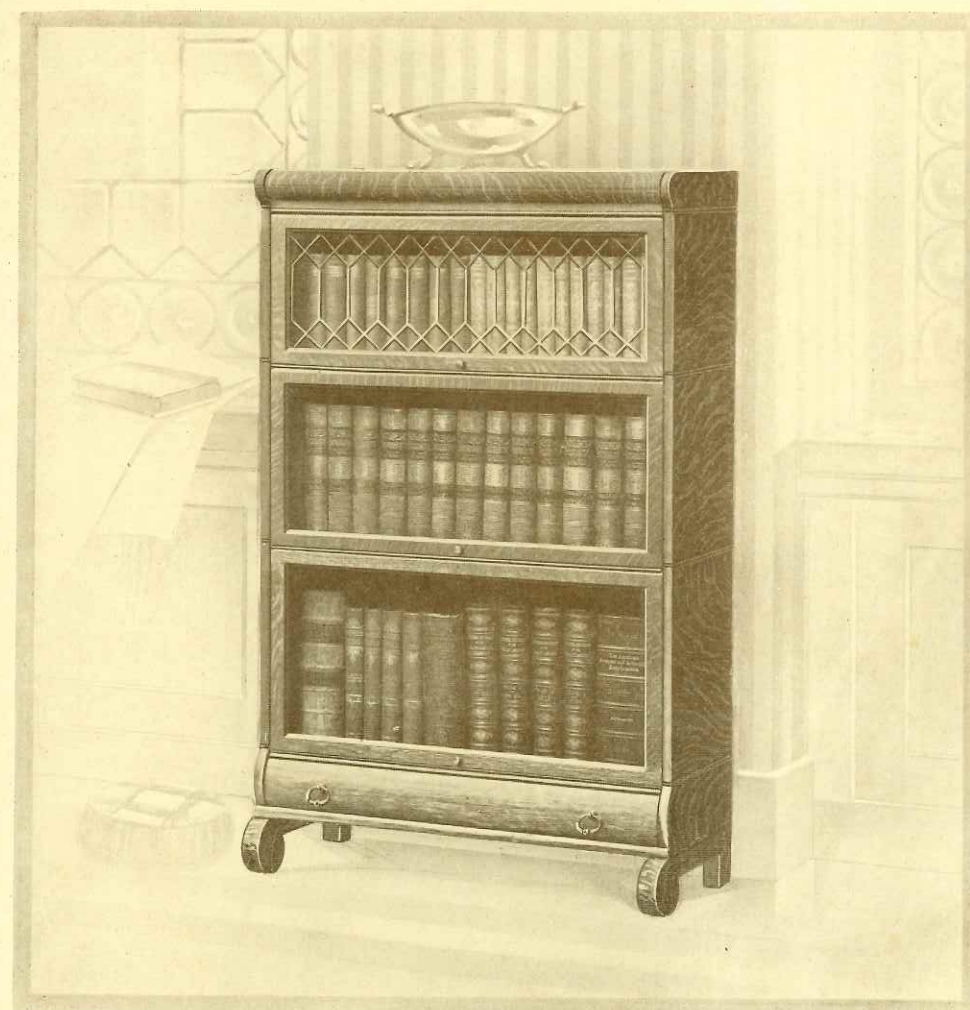

Colonial Design

ABOVE we illustrate a Colonial Library which suggests the unlimited possibilities of artistic arrangements with Lundstrom Sectional Bookcases. To combine artistic effect with the practical utility of a sectional bookcase, has been our aim in the Colonial Design.

These cases are particularly well adapted for use in the exclusive home library as they will harmonize with the most costly surroundings, and lend a tone of refinement to any home. They are made along the beautiful lines for which Colonial furniture is noted. The top section has roll or swell front moulding. The base section is mounted on scroll feet, and is furnished with or without drawer, as may be desired.

The book sections are the same as used in Universal Design, having solid plain ends hinged to the shelf by means of special irons to allow section to be folded flat for shipment. They are set up without the use of tools and when set up are very rigid.

THREE SECTION BOOKCASE — Colonial Design

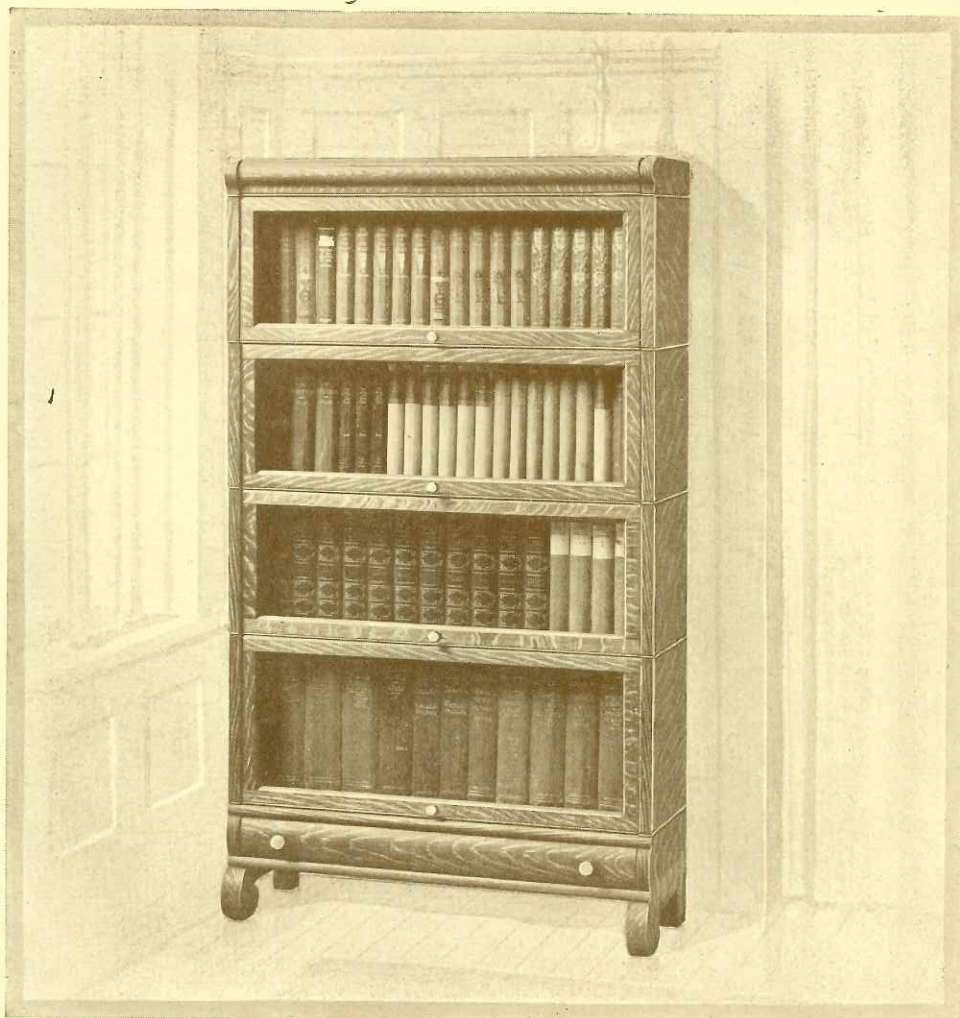

48½ inches high, 34 inches wide, 8 feet book space

Colonial Design	Qt. Oak or Int. Mah'y Int. Waln't	Gen. Mah'y
1 No. R-NU Roll Top Section.....	\$ 2.75	\$ 3.50
2 No. 9½-NU Book Sections.....	8.50	11.00
1 Diamond Leaded Glass	3.25	3.25
1 No. 11½-NU Book Section.....	4.25	5.50
1 No. CD-NU Col. Dr. Base Sec....	5.00	6.00
Total.....	\$23.75	\$29.25

Three book sections with top and base section make a very attractive combination. More book sections may be added as more book space is needed.

If plain glass is desired in all book sections, omit extra charge for leaded glass from specification.

Regarding finish, see page 30.

FOUR SECTION BOOKCASE — Colonial Design

60 inches high, 34 inches wide, 10 feet 8 inches book space

Colonial Design	Qt. Oak or Imt. Mah'y Imt. Waln't	Gen. Mah'y
1 No. R-NU Roll Top Section-----	\$ 2.75	\$ 3.50
3 No. 9½-NU Book Sections-----	12.75	16.75
1 No. 11½-NU Book Section-----	4.25	5.50
1 No. CD-NU Col. Dr. Base Sec.---	5.00	6.00
Total-----	\$24.75	\$31.50

This combination is particularly well proportioned, and presents a handsome appearance. If diamond leaded glass is desired in upper book section, add \$3.25 to total shown in specification.

Regarding finish, see page 30.

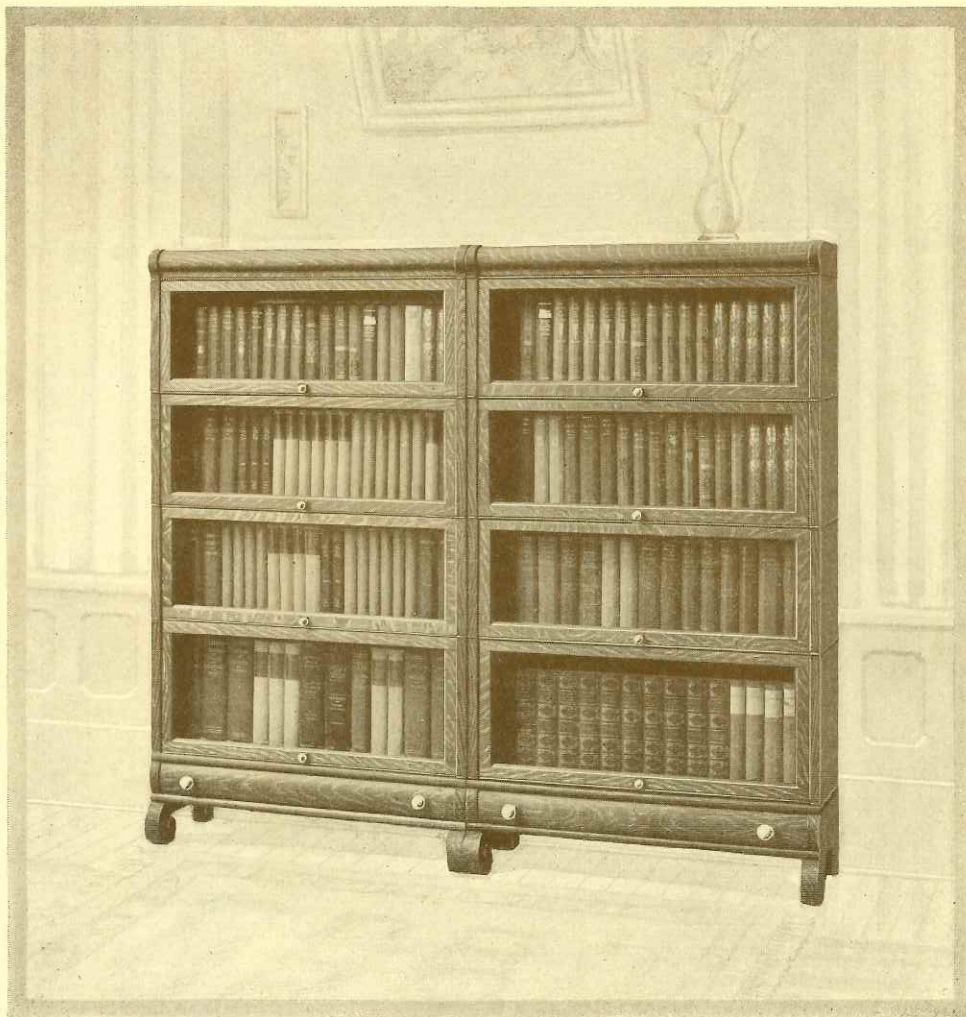

COMBINATION DESK AND BOOKCASE — Colonial Design

56 inches high, 34 inches wide, 8 feet book space

Colonial Design	Qt. Oak or Imt. Mah'y Imt. Waln't	Gen. Mah'y
1 No. R-NU Roll Top Section-----	\$ 2.75	\$ 3.50
3 No. 9½-NU Book Sections-----	12.75	16.50
1 No. D-NU Desk Section-----	12.00	14.00
1 No. CL-NU Col. Low Base Sec.---	2.75	3.50
Total-----	\$30.25	\$37.50

The desk stack makes a very good arrangement for the home. The two book sections in 9½ size with Colonial low leg base section without drawer bring the writing bed to a convenient height.

Regarding finish, see page 30.

EIGHT SECTION BOOKCASE — Colonial Design

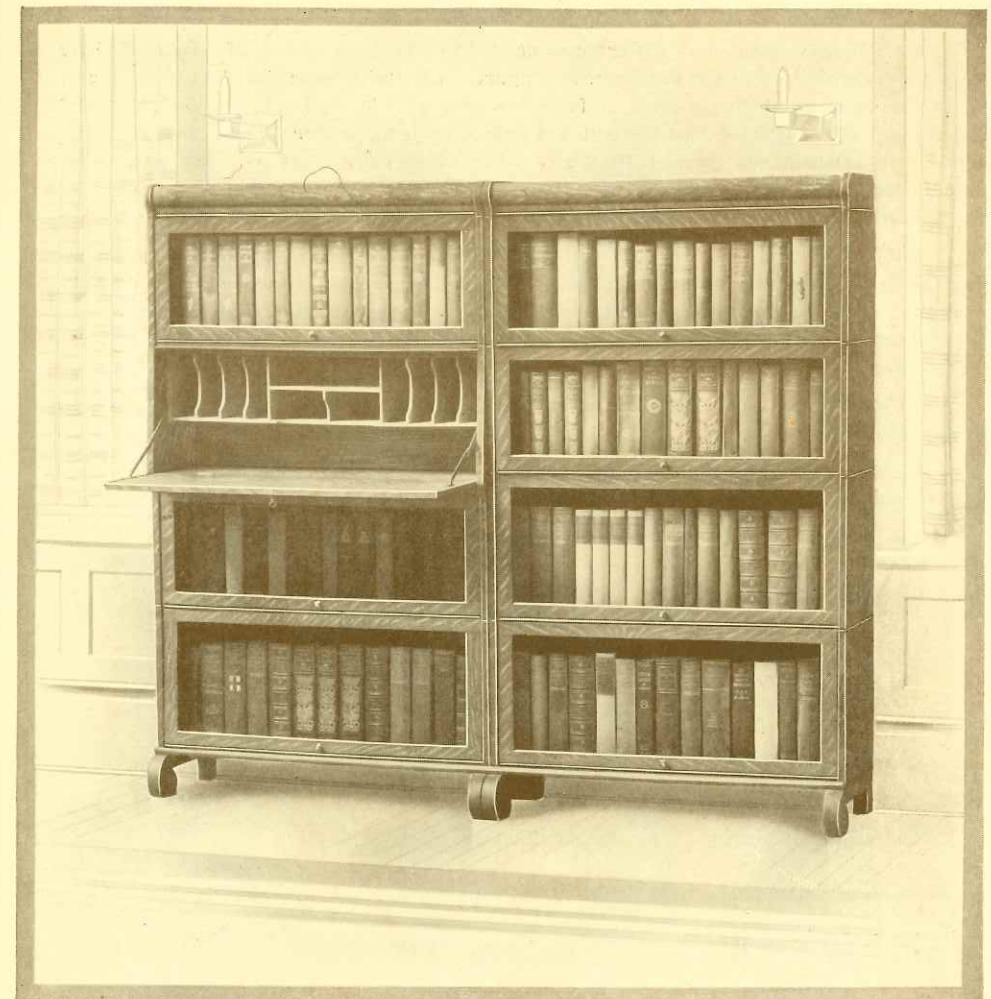

60 inches high, 68 inches wide, 21 feet 4 inches book space.

Colonial Design	Qt. Oak or Imt. Mah'y Imt. Waln't	Gen. Mah'y
2 No. R-NU Roll Top Sections.....	\$ 5.50	\$ 7.00
6 No. 9¼-NU Book Sections.....	25.50	33.00
2 No. 11¼-NU Book Sections.....	8.50	11.00
2 No. CD-NU Col. Dr. Base Secs..	10.00	12.00
Total.....	\$49.50	\$63.00

When two stacks of these Colonial Design cases are used side by side, they present a very handsome appearance. Either stack may be used separately at any time.

While we show four book sections in each stack, any other number may be used; three to five being the usual number.

Regarding finish, see page 30.

COMBINATION DESK AND BOOKCASE STACKS — Colonial Design

56 inches high, 68 inches wide, 18 feet 8 inches book space

MATERIAL

MAHOGANY Cases have all exposed parts (not the back and shelf) made of Genuine Mahogany, carefully selected for grain and figure. The finish is in harmony with the quality of the wood, producing a piece of furniture that will do justice to the most costly surroundings. By reason of the straight grain and uniform texture, mahogany is less susceptible to atmospheric changes than any other wood known. It will not warp nor get out of shape. Mahogany darkens with age, and gradually takes on that nice mellow color for which expensive antique furniture is noted.

IMITATION MAHOGANY and IMITATION WALNUT Cases are made of Birch, Gum or other suitable wood, stained to produce a good imitation of the Genuine Mahogany or Walnut. While the permanence and beautiful grain of the Genuine Mahogany are lacking, the Imitation Mahogany and Imitation Walnut Bookcases are durable and serviceable; particularly for office use.

QUARTERED OAK Cases are made of carefully selected stock, with fine grain and large flaky figures.

PLAIN OAK Cases are made of a good grade of oak, carefully selected and matched. These cases are a general favorite for office use.

All lumber used in the construction of our cases is thoroughly kiln-dried to prevent warping.

FINISHES

Plain Oak:	*No. 10, Golden (Dark Brown). No. 20, Antique (Light Yellow).
Quartered Oak:	*No. 10, Golden (Dark Brown). No. 20, Antique (Light Yellow).
Imitation Mahogany:	No. 50, Medium Dark.
Genuine Mahogany:	No. 50, Medium Dark.
Imitation Walnut:	No. 60, Medium Dark.
Enameled:	No. 70, White.

*Unless otherwise specified in order, the plain and quartered oak cases are furnished in the Golden (Dark Brown) finish. Special finishes ten per cent extra.

These finishes are standardized shades and match harmoniously with finishes in other selected designs of furniture.

The interiors of all sections are neatly finished to contrast agreeably with exteriors.

Unfinished cases; in the white, for painting or enameling, are furnished for ten per cent less than quoted for finished cases. We recommend for this purpose the imitation mahogany grade, as the wood used in that grade is more suitable for painting than the oak.

COMPARATIVE LENGTHS

This diagram will serve to illustrate the number of different spaces which can be accommodated by combining our standard and three-quarter length sections. Our standard length sections measure 34 inches and our three quarter length $25\frac{1}{2}$ inches, outside measurement. We can supply the three-quarter length cases at the same price as quoted for the regular standard length sections. Desk section made only in standard length.

TERMS:

The prices quoted in our catalog are strictly NET; F. O. B. factory.

Where C. O. D. shipment is desired, we require a deposit of 25% of amount of the order. On freight shipment, the balance will be collected by sight draft attached to bill of lading, this draft being forwarded through any bank designated. On express shipment, the express company will collect the balance upon delivery of the shipment.

ALL GOODS SHIPPED ON APPROVAL AT OUR RISK

All goods (with the exception of special goods finished to order) are shipped subject to the approval of the purchaser, and are to be returned by him within thirty days from receipt of goods if they are not acceptable. In the event that goods are returned to us we guarantee to refund promptly remittance in full upon request; we to pay freight charges both ways.

We also agree to assume all responsibility in case of damage or loss in shipment; orders for special goods excepted.

Recognizing the fact that a catalog can, at its best, give but a general idea of the goods shown therein, we only ask you to order; not to buy. The money accompanying your order is merely held in trust while the goods are shipped and examined.

ADVANTAGES OF ORDERING DIRECT

By ordering direct from the factory you have a better chance to inspect our Sectional Bookcases than if they were exhibited in a retail store. You decide as to their merits in the privacy of your own home, without agents or salesmen to influence you. You are always assured of receiving new and not shopworn stock. You save at least 30%, the usual discount allowed to dealers.

WHY OUR PRICES ARE LOW.

Our low prices are not made with a view of underselling other manufacturers. Rigid economy, acquired by the manufacture of a single product in large quantities, combined with our modern methods of selling direct to the user, enable us to offer a superior article at a considerable saving in cost to the purchaser.

By comparing our prices with those quoted by other manufacturers you will find that you can save at least 30% by purchasing direct from our factory.

We make a specialty of Sectional Bookcases and have no agents, hence our ability to offer our goods at less figures and on more liberal terms than any other manufacturer of Sectional Bookcases in the United States.
